-Generating and recording of group norms-visible and referred to each time

K-12 Math Articulation Norms: *I will post on Moodle*

- We will come prepared
- We will attend or send a representative and start and end on time
- We will invite and welcome the contributions of every member and listen to each other
- We will be involved to our individual level of comfort. Each of us is responsible for airing disagreements during the meeting rather than carrying those disagreements outside the meeting.
- We will operate in a collegial and friendly atmosphere, while staying focused on the agenda.
- We will communicate our discussions, deliberations and decisions to our colleagues.
- We will work together as a community in order to examine all points of view before a consensus is accepted.
- Our focus will be on what is best for students.
