STUDENT SERVICES

SELF-ADMINISTRATION OF ASTHMA AND ANAPHYLAXIS MEDICATIONS

It is the policy of the board of directors that students with asthma or anaphylaxis are afforded the opportunity to self-administer prescribed medications.

The student shall demonstrate competence, to possess and self-administer prescribed medications during school and at school sponsored events, to the school's professional registered nurse.

Although students are not required to have completed AMA (Authorization for Medication Administration) the school district recommends that parents provide a backup rescue medication to the store at the school. The AMA form #SN-02 must be completed by the prescribing health care official for all medication stored at the school.

The superintendent is directed to establish procedures that implement this policy and develop emergency rescue procedures.
